HOSPITAL DISINFECTANT | **MOLD & MILDEW CLEANER** | **ANTI-BACTERIAL/FUNGICIDE**

Kills Bacteria in 60 seconds
Kills 99.9% of Germs
EPA Level IV Toxicity category

SNiPER™ is the next generation of disinfection technology. **SNiPER**™ is a powerful disinfectant and all-purpose cleaner that is a mild, environmentally friendly product which is non-irritating to the skin, and doesn't produce harsh chemical fumes and is non-abrasive to surfaces. **SNiPER**™ can be applied to most any surfaces and left to dry.

CLEAN - DISINFECT - DEODORIZE

Disinfectant Technology

SNiPER™ is tested effective as a bactericide, virucide, fungicide. Its proprietary formulation makes it a unique disinfection system targeting the most harmful virus and bacteria while remaining mild and Eco-friendly. **SNiPER**™ has the highest efficacy and is easy to use. It will eliminate odors from smoke, urine, and other bodily fluids, sulfur, ammonia and much more. It is a broad spectrum "Hospital" disinfectant cleaner able to fulfill many responsibilities in one product. It is ideal to use around children, the elderly and those with allergies, asthma or immune deficiencies. **SNiPER**™ does not emit or produce harsh chemical fumes. **SNiPER**™ is ideal for multiple applications.

Freedom of Surface Treatment

Most household and industrial chemical brands utilize harsh chemicals for cleaning and disinfecting which limit the various surfaces that can be treated as well as the methods of applications. Harsh chemicals limit effective application versatility. **SNiPER**™ provides ease of application without the harmful effects of traditional chemical brands. **SNiPER**™ can be applied to surfaces and left to dry providing maximum effectiveness. Use **SNiPER**™ on any surface that may harbor harmful germs. **SNiPER**™ does not need to be wiped off of a surface to prevent damage. It should remain on surfaces for maximum protection while reducing the potential of exposure liability.

SNiPER™ is non-corrosive, non-flammable, non-chlorinating, hypo-allergenic and a true biodegradable product.
